PRODUCT OFFERINGS

Ceiling

Specification

CEILING TILE: 1mm Thk GI sheet with linear baffle tiles

STRUCTURE: 1mm Thk GI Sheet with Laser cut profiles

Top Clamp: 1.2mm Thk GI Sheet Top clamp for holding the rod

Tile Top clamp: 1mm Thk Aluminium Sheet snap fit clamp

End Cap: 1mm Thk Aluminium end cap

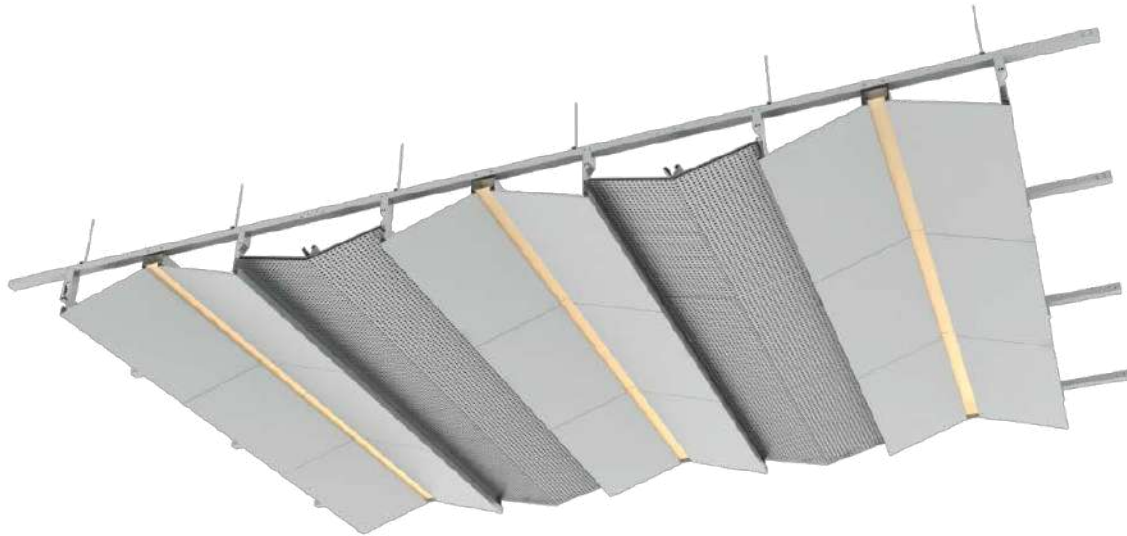

Rod Mounting Clamp: 1.2 mm Thk GI Sheet

Features

- 1) Square-groove Section Bar Ceiling is made of proximate square tubes by continuous rolling stamping or cold rolling forming
- 2) The installation structure is dedicated keels buckle structure. The installation method is similar with ordinary strip ceilings, which is easy and convenient for indoor decoration
- 3) Much easier and more convenient to check and maintain the equipment
- 4) Transparent, modern, sound-absorptive and decorative
- 5) The designers can make the space more transparent and lively by adjusting the height, direction and the variation of color and light

PRODUCT OFFERINGS

Ceiling

Specification

Ceiling Tile:

PLAIN TILE: 0.6mm thk GI/CRCA Sheet with Clip-in arrangement In slant design

Perforated Tile: 0.6mm thk GI/CRCA sheet at slant design with back side fabric

Illumination Tile: 0.6mm thk GI/CRCA Sheet with Acrylic sliding arrangement and inside LED Light fixing

FRAMING:

Main Frame: 0.8mm thk GI/CRCA Sheet for making ceiling slant design and Clip-in arrangement

Structure Stiffner: 0.8mm thk GI/CRCA sheet

Laser Cut Brackets: 1.6mm Thk CRCA Powder coated

FINISH: Epoxy Powder Coated (As per approval)

Features

- 1) Beautiful and colorful : fluent lines and various patterns & colors could create different decorating effects and styles
- 2) Practical and material -saving: customizing available
- 3) Simple structures: With standard keels buckle installation structure, after installation, the ceilings are flat and without any cracks, and holes are adjustable for your design
- 4) The sound-absorbing effect will be much better if sticking sound-absorbing paper or acoustic wool
- 5) Light, HVAC And fire dampers cutout can be easily done by maintaining ceiling aesthetics

PRODUCT OFFERINGS

Ceiling

Specification

CEILING TILE:

Plain Tile: 0.6mm thk GI/CRCA Sheet with hooking arrangement (It may have the HVAC, Down Light Cutout as per site requirement)

Perforate Tile: Honeycomb Perforation in 0.6mm thk GI/CRCA Sheet with back side fabric fleece

Illumination Tile: 0.6mm thk GI/CRCA Sheet with Acrylic sliding arrangement and inside LED Light fixing

FRAMING:

Main Frame: 1.2mm Thk GI Sheet with Laser cut profile for tile fixing

Structure Stiffner: 0.8mm Thk GI Sheet

Hanging Rod: 6/8 mm Plated Rod for hanging

FINISH: Epoxy Powder Coated (As per Approval)

Features

- 1) The size of PLANK ceiling panel could be customized according to the actual space requirements
- 2) It can be designed into all kinds of decorative effects and shapes, and is widely used in places which have strict requirements for ceilings
- 3) After the keel system is fixed, the ceiling panel can be Slides and taken out from one end by hands
- 4) The ceiling placing system is wind-proof structure, it will be always firm even in storm
- 5) Light, HVAC And fire dampers cutout can be easily done by maintaining ceiling aesthetics.

PRODUCT OFFERINGS

Flooring

PYROTECH

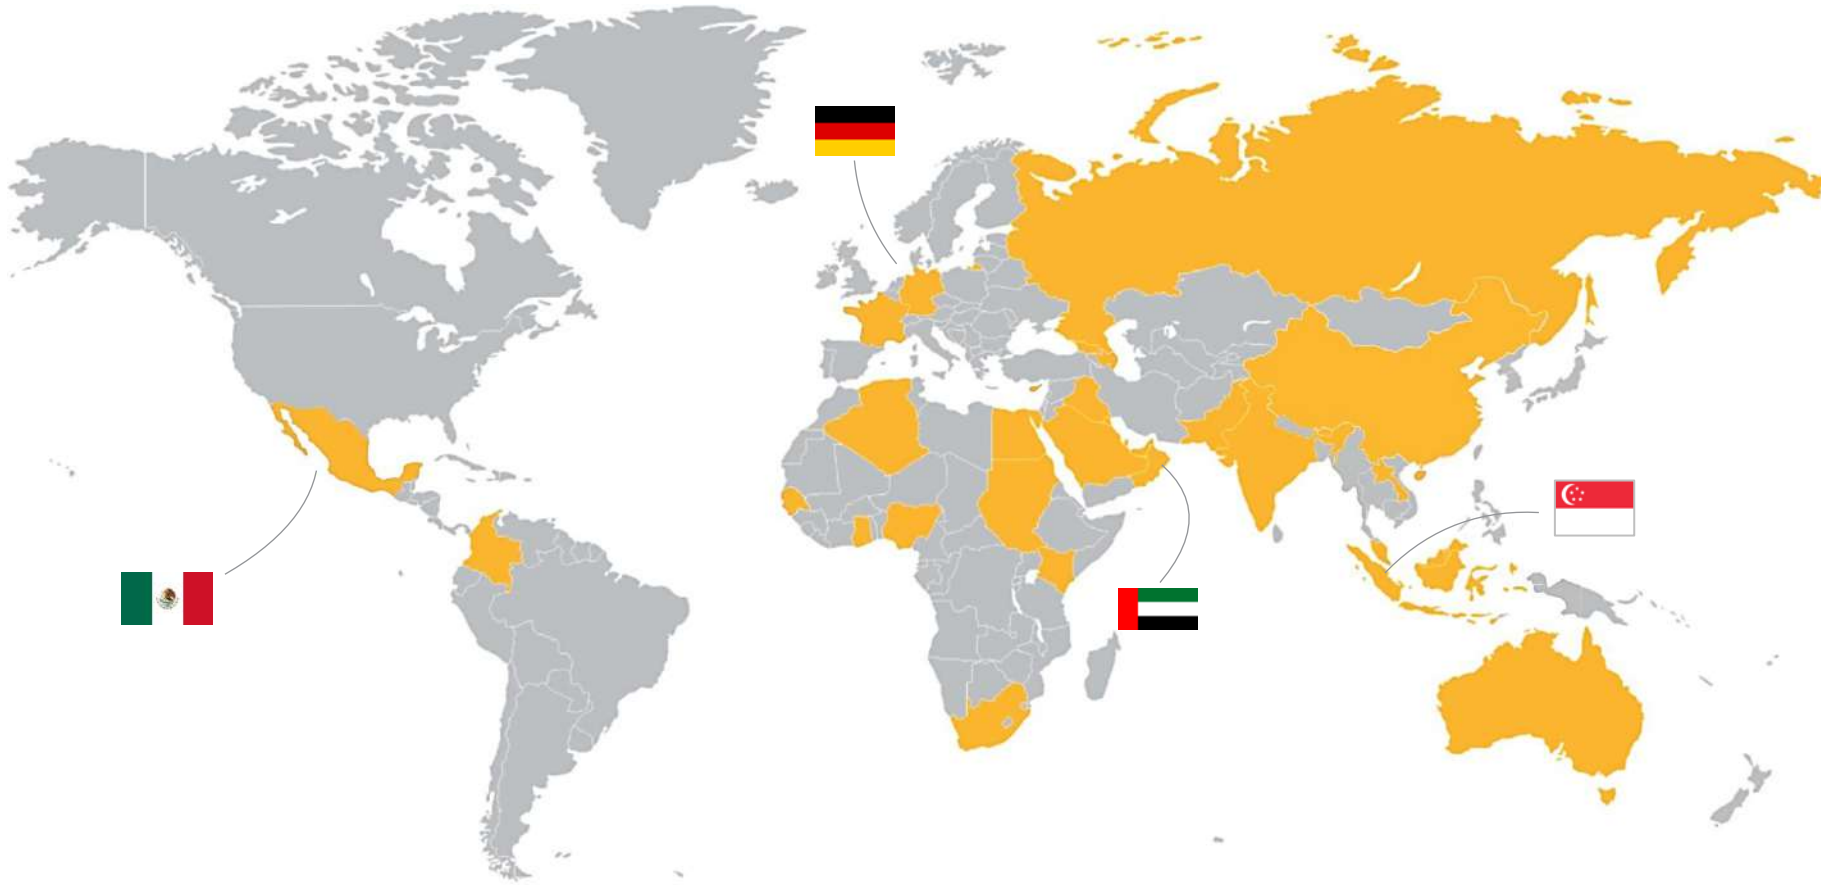

beyond the obvious®

Linoleum is a natural product made from renewable raw materials that are subject to strict controls. It is manufactured using the natural raw materials linseed oil, rosin, wood flour and limestone, as well as jute and pigments.

International Certifications

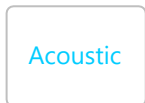

*

Control Room Solution is GREENGUARD (UL-USA) certified for low chemical emissions of VOCs and carcinogens, contributing to a healthier control room environment.

We comply to international control room norm : ISO-11064.

We follow the control room acoustic norms by keeping the sound level within the range of 45db in a control room environment.

We offer Seismic Certified Interiors & Consoles.

Our solution is tested against fire spread index, with lesser emission of smoke and flames to reduce the risk of hazardous accidents.

ROHS Certified console and interior system ensures the product does not have 6 major hazardous substances.

BIFMA X 5.5 certified Console system focuses on development of safety and stringent performance standards for 24/7 application.

UL tested consoles recognized safety standards and has been found to be free from reasonably foreseeable risk of fire, electric shock and related hazards in a Division 2/ Zone Environment.

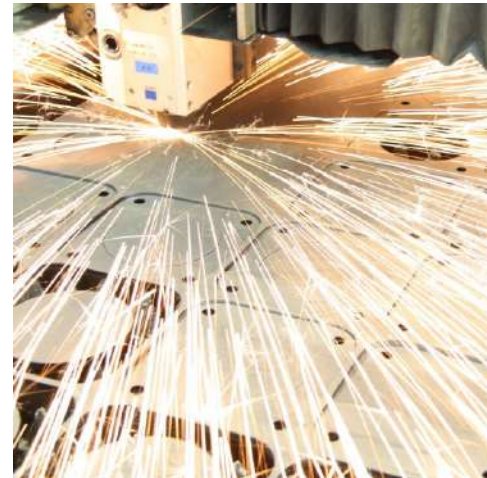

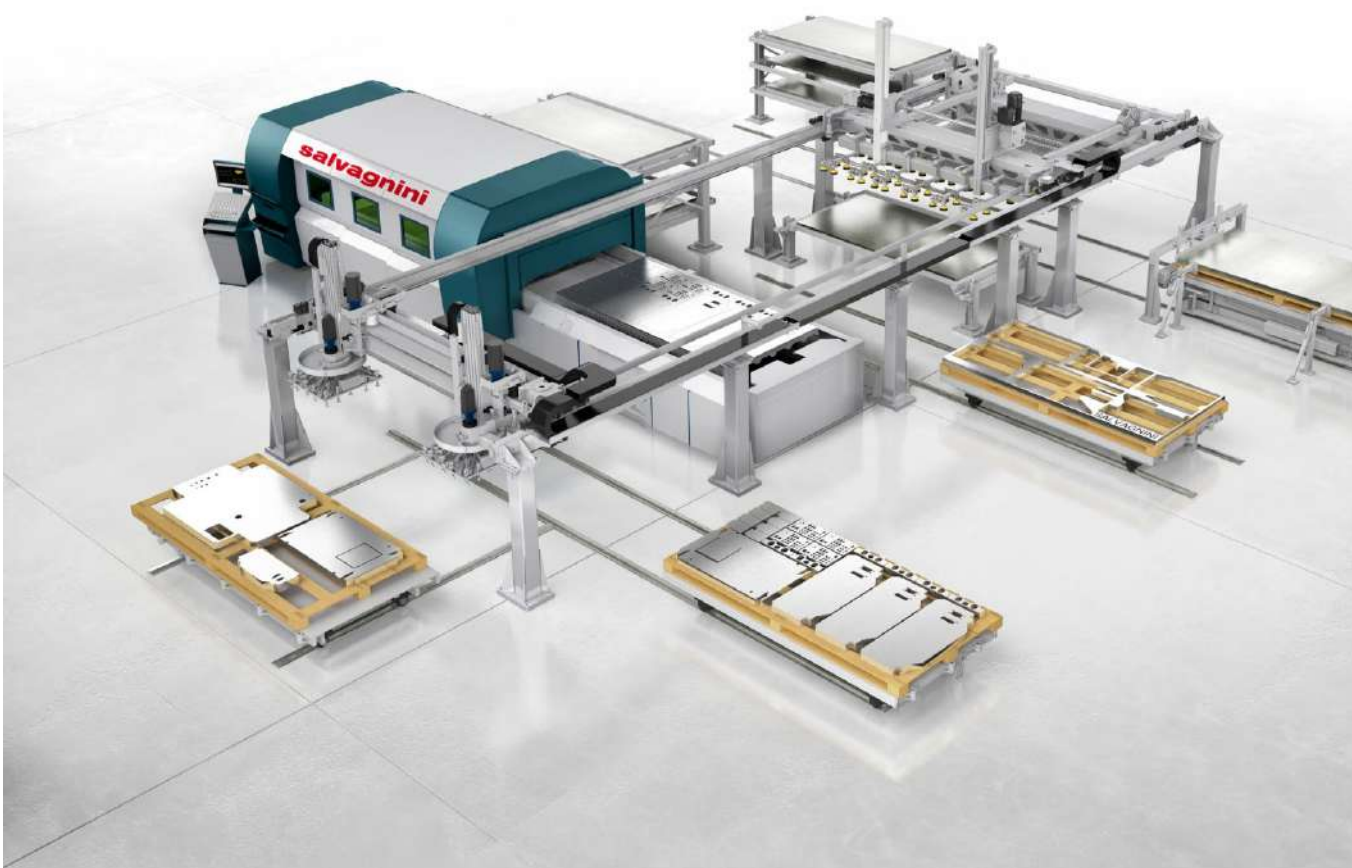

* * Pyrotech Workspace is the only company in the world to have this certification

* Pyrotech Workspace is amongst the 3 companies in the World to have this certification

Consoles Interiors

Best-in-class Raw Material & Machinery

Our raw material comes from best-in-class brands like Wilsonart USA, Corian USA, Rehau Germany, Weidmuller, AkzoNobel Dutch and many more. These are then processed on pre-eminent machinery from Germany, Japan and Italy to offer highly optimized and customized solution.

100% In-house
